

RITIK

Full Stack MERN Developer

📞 9808433521 ✉️ ritikvarun64@gmail.com 🌐 ritikvarun.me

SUMMARY

BCA graduate with hands-on experience in building responsive and full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in developing production-ready client projects, REST APIs, and modern user interfaces. Passionate about creating scalable web applications and continuously learning new technologies.

PROJECTS

Freelance | Gym Management Website (Full Stack)

🔗 <https://www.musclecraftfitnessgym.in/>

- Developed a production-ready gym management website for a freelance client using React.js, Node.js, Express.js, and MongoDB Atlas.
- Built a custom admin dashboard, REST APIs, Cloudinary integration, Resend email notifications, and deployed the application using Vercel and Render.

E-commerce Website (Full Stack)

🔗 <https://shopx-6u3e.onrender.com/>

- Developed a full-stack e-commerce application with features like product listing, cart functionality, and user interaction. Implemented **AI-based voice navigation** that allows users to move across different pages using voice commands. Worked on both frontend and backend to manage data and improve overall user experience.

LinkedIn Clone (Full Stack)

🔗 <https://linkend-in-clone.vercel.app/>

- Built a LinkedIn-inspired web application with **React.js, Node.js, Express.js, and MongoDB** featuring authentication, user profiles, post sharing, image uploads, and REST API integration with a responsive user interface.

SKILLS

Master of Computer Applications (MCA) – Online

GLA University, Mathura

📅 2026 – Present 📍 Mathura

Bachelor of Computer Applications (BCA)

Uttam Institute of Technology and Management

📅 2023 - 2026 📍 Runkata Agra

EXPERIENCE

Frontend Developer Intern

welvic india

📅 03/2024 - 10/2024

- Developed the complete frontend of an e-commerce website using HTML5, CSS3, and JavaScript.
- Built responsive user interfaces for the home page, product listing, product details, shopping cart, checkout, and other core e-commerce pages.
- Created reusable UI components and optimized the website for a seamless user experience across desktop and mobile devices.
- Collaborated with the development team to integrate frontend pages with backend APIs and implement client requirements.
